The prior art of record (ref 6,181,644) discloses Diver mask underwater imaging system that defines a user field of view in the front of the user's eyes by image recording included in the housing; (ref 4,318,522, figures 1,4) disclose a structure of gimbal mechanism supports the articals and orientation of a large

objects operating from inertial platform. Thus, the prior art do not discloses the claimed combination as set forth above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
